

SHIRIN KHARAZMI

BI Developer | Data Analyst | Analytics Engineer

📍 Mashhad, Iran ✉ shirinkharazmy@gmail.com 🔗 [linkedin.com/in/shirin-kharazmi](https://www.linkedin.com/in/shirin-kharazmi)

CORE SKILLS

BI & Analytics

Power BI · Tableau · KPI Design

Data Engineering

SQL · Data Warehousing · ETL · Data Modeling

Programming

Python · pandas · numpy · Airflow · Celery

Databases

PostgreSQL · SQL Server · MySQL · MongoDB

AI / ML

Anomaly Detection · scikit-learn · Model Evaluation

TOOLS & PLATFORMS

Docker · GitHub Actions · Kafka

Elasticsearch · Linux · GCP

EDUCATION

M.S. Communication Systems

Ferdowsi University, 2021

B.S. Electrical Engineering

Ferdowsi University, 2017

CERTIFICATIONS

Google Data Analytics

Google BI Professional

Kafka 101 — Confluent

DeepLearning.AI NLP

Kaggle: SQL, ML, Feature Eng.

PORTFOLIO

📁 BI Dashboard (Figma)

PROFILE

Senior BI Developer with 4+ years designing enterprise data warehouses, KPI systems, and executive dashboards. Strong expertise in SQL analytics, data modeling, and scalable ETL pipelines. Experienced in AI/ML evaluation workflows including anomaly detection and performance tracking for production systems.

EXPERIENCE

BI Developer

Shokouh Javid Iranian

2023 – Present

- Designed enterprise data warehouse integrating trading, CRM, and marketing sources.
- Built advanced SQL models for high-volume analytics and KPI reporting.
- Developed ETL pipelines using Airflow, Celery, and Redis.
- Built Power BI dashboards for executive and operational decision-making.
- Implemented data validation frameworks ensuring consistency and accuracy.

Data Scientist

Hotelian.com

2022 – 2023

- Built anomaly detection pipelines improving data integrity and reporting accuracy.
- Applied statistical analysis to surface business insights and data inconsistencies.
- Developed Elasticsearch-based analytics for large-scale text data.
- Built geo-analytics dashboards using OpenStreetMap + Streamlit.

SELECTED PROJECTS

BI Dashboard System — Figma Prototype

- Designed KPI-driven dashboard architecture for executive reporting.
- Focused on clarity of metrics and decision-support visualization.

AI & Analytics

- EEG classification using Graph Neural Networks.
- NLP classification model — 4th place in AI competition.
- ML recommender system deployed with Streamlit.
